IGAR 6 Advanced

- Wide temperature ranges and various operating modes:
  - 1-color mode: 100 ... 2000 °C
  - 2-color mode: 250 ... 2000 °C
  - Smart mode: automatic (temperature-dependent) transition from 1-color to 2-color mode
- Automatic emissivity determination
- “Dirty Window” Warning
- Fully digital core for sub-ranging and adopted analog output
- Very fast 2 ms response time for highly dynamic processes
- Best optics in its class with manual focus capability
- 4 digit LED display
- Robust, stainless steel sensor for harsh environments (IP65/NEMA4)

The IGAR 6 Advanced pyrometer is a digital, compact and fast pyrometer which - depending on the individual requirements - can be operated in different modes. Besides the 1-color mode (100 ... 2000 °C) a 2-color mode (250 ... 2000 °C) or a special Smart mode can be selected. In Smart mode, the measurements in the range between 100 ... 250 °C will be taken in 1-color mode whereas in the range between 280 ... 2000 °C the measurements will be based on the 2-color method (ratio method). In the range from 250 to 280 °C, a continuous transition from 1-color to 2-color measurement automatically takes place.

In 2-color mode (ratio method) two adjacent wavelengths are used for the temperature determination. This technique offers the following advantages compared to standard 1-color pyrometers:

- The temperature measurement is largely independent of the object’s emissivity and in wide ranges unaffected by dust and other contaminants in the field of view. The measuring object can be smaller than the spot size, measurements through dirty viewing windows are possible up to a certain contamination.

When the instrument is operated in 2-color or Smart mode, InfraWin provides the option to automatically determine the emissivity. By pushing the button “Emi=xxx% Accept”, this emissivity is set and used for all measurements in 1-color mode or in Smart mode below 280 °C.

The response time of only 2 ms facilitates the measurement of fast processes. The IGAR 6 is equipped with a built-in “dirty window” warning.

The pyrometer can be connected to a PC through an RS485 to USB connection, enabling parameter adjustments to be made using the InfraWin software. This can be used for temperature indication, data logging and further analyzing of complete temperature processes.

Typical applications:
- Steel Making
- Metal Processing - e.g. Induction Processes: Hardening, Tempering, Annealing, Soldering, Brazing, Welding, Froging, etc.
- Metal Processing - Wire/Rod Mill, Heating and Cooling Processes
- Sintering
- Vacuum Processes - e.g. Coating, Brazing, etc.
- Laser Applications
## Technical Data

### Measurement Specifications

<table>
<thead>
<tr>
<th>Specification</th>
<th>Details</th>
</tr>
</thead>
</table>
| Temperature Ranges: | 1-color and Smart mode: 100 to 2000 °C  
2-color (ratio) mode: 250 to 2000 °C |
| Sub Range: | Any range adjustable within the temperature range, minimum span 50 °C |
| Spectral Ranges: | Channel 1: 1.5 ... 1.6 µm  
Channel 2: 2.0 ... 2.5 µm |
| Resolution: | 0.1 °C or 0.2 °F at interface; < 0.0015% of selected sub range at analog output, min. 0.1 °C, 16 bit; 1 °C or 1 °F on display |
| Emissivity ε: | 0.050 to 1.000 in steps of 1/1000 (1-color mode) |
| Transmittance T: | 0.050 to 1.000 in steps of 1/1000 (1-color mode) |
| Emissivity Slope K: | 0.600 to 2.000 in steps of 1/1000 (2-color mode) |
| Measurement Uncertainty: | < 1500 °C: 0.4% of reading in °C + 2 °C  
> 1500 °C: 0.8% of reading in °C |
| Repeatability: | 0.2% of reading in °C + 1 °C |

### Spectral Ranges

- Channel 1: 1.5 ... 1.6 µm
- Channel 2: 2.0 ... 2.5 µm

### Resolution

- 0.1 °C or 0.2 °F at interface
- < 0.0015% of selected sub range at analog output
- Min. 0.1 °C, 16 bit
- 1 °C or 1 °F on display

### Emissivity ε

- 0.050 to 1.000 in steps of 1/1000 (1-color mode)

### Transmittance T

- 0.050 to 1.000 in steps of 1/1000 (1-color mode)

### Emissivity Slope K

- 0.600 to 2.000 in steps of 1/1000 (2-color mode)

### Measurement Uncertainty

- < 1500 °C: 0.4% of reading in °C + 2 °C
- > 1500 °C: 0.8% of reading in °C

### Repeatability

- 0.2% of reading in °C + 1 °C

### Optical Specifications

- Built-in laser aiming light (max. power level < 1 mW, λ = 630 to 680 nm, CDRH class II) or through-lens sighting
- Manually focusable from rear cover measuring distance a = 210 to 5000 mm
- Approx. 100 : 1

### Environmental Specifications

</tbody>
</table>

### Note

- MB is a shortcut used for temperature range (in German: Messbereich)
- The determination of the technical data of this pyrometer is carried out in accordance with VDI/VDE IEC TS 62942-2, the calibration / adjustment in accordance with VDI/VDE 3511, Part 4.4. See http://info.lumasenseinc.com/calibration for more information.
Sighting

The optics can be manually adjusted at all distances between 210 mm and 5000 mm. The table shows examples of distances and the corresponding spot diameters:

<table>
<thead>
<tr>
<th>Distance a [mm]</th>
<th>Spot Diameter M [mm]</th>
</tr>
</thead>
<tbody>
<tr>
<td>210</td>
<td>2.1</td>

</tr>
</tbody>
</table>

Effective aperture D for all temperature ranges: 13 mm (focused to longest distance) to 15 mm (focused to shortest distance)

Optional Integrated Line Optics

Besides the standard optical heads the IGAR 6 is optionally also available with integrated line optics which features a special spot in shape of a line. It provides additional advantages for some applications such as wire production or pouring stream measurements.

The length of the spot equals 5% of the measuring distance.

**Scope of delivery:** Pyrometer with PC software InfraWin for adjustment and evaluation, Works Certificate, and Manual

**Ordering note:** A connection cable is not included in scope of delivery and must be ordered separately

### Accessories

- 3 820 330 Connection cable, 5 m, straight connector*
- 3 820 500 Connection cable, 10 m, straight connector*
- 3 820 510 Connection cable, 15 m, straight connector*
- 3 820 810 Connection cable, 20 m, straight connector*
- 3 820 820 Connection cable, 25 m, straight connector*
- 3 820 520 Connection cable, 30 m, straight connector*
- 3 820 340 Connection cable, 5 m, 90° connector*
- 3 820 530 Connection cable, 10 m, 90° connector*
- 3 820 540 Connection cable, 15 m, 90° connector*
- 3 820 830 Connection cable, 20 m, 90° connector*
- 3 820 840 Connection cable, 25 m, 90° connector*
- 3 820 550 Connection cable, 30 m, 90° connector*
- 3 852 290 Power supply NG DC for DIN rail mounting; 100 to 240 V AC ⇒ 24 V DC, 1 A
- 3 852 550 Power supply NG 2D for DIN rail mounting; 85 to 265 V AC ⇒ 24 V DC, 600 mA with 2 settable limit switches
- 3 826 750 USB to RS485 adaptor cable, 1.8m, HS Version 4.5 Mbd
- 3 826 510 PI 6000: PID programmable controller

*All connection cables include a short adapter cable with a 9-pin SUB-D connector. This connector may be used in combination with the RS485 to USB adapter.

### Accessory Overview

- Digital Display
- Mounting Brackets
- Air Purges
- Air/Water Cooled enclosures
- Fast Digital Controllers
- Scanning Mirror Attachments
- Industrial Power Supplies
